Hi Monica,

As a follow-up to our conversation and to a conversation I had with Carl, I am forwarding a link contained in the email from David Stroh of my staff. The link will allow your staff to view the information we have received thus far from Meridian. Please have your staff contact Craig Thorstenson of my staff should they have any questions or comments.

Terry

Terry,

The best way for EPA to access and review the Meridian Energy Group Inc. – Davis Refinery permit application files is by using the links on our PTC in progress page:
<http://www.ndhealth.gov/aq/ptCInProgress.aspx#Meridian>

We have the original and revised applications with supporting information directly linked. Additionally, there is a link to the open records via Google Drive. We place all the incoming/outgoing correspondence to the Google drive. Note that there is a lot of information in this location and navigating it is not that easy unless you have kept up with the project.
